- * The Office of the Vice-President (Administration) advises that the night bus service operated on Keele Street between Bloor Street and Islington Avenue and the Toronto Yard of the CNR north of Steeles Avenue will be discontinued after the morning service on March 12, 1972. This bus (which currently runs between 1:00 a.m. and 6:00 a.m.) is under charter to CNR from the TTC and the service is not required by CNR after March 12.
- * Some Inter-Campus mail is being posted in the Out-Going section of the University mail boxes. Such mail is returned to the University by the Downsview Federal Post Office and a double postage charge levied against the University Post Office. GENERAL

(cont'd.)

- * York's Centre for Continuing Education will offer a new course in Business Policy, designed for those individuals who are involved in formulating and administering long-range and broad decisions, responsible for determining or implementing organizational strategy, and concerned about the developing concept of corporate citizenship which extends responsibility into the community at large. The course will be held from March 9 until July 6. For further information call 635-2524.

- * There are many examples of inter-campus mail being posted in the outgoing section of the University mail boxes. Such mail is returned to the University by the Downsview Federal Post Office and a double postage charge levied. The volume of these surcharges is becoming such that it will now be necessary to charge the individual or his department with these costs.
A second area of concern is the increasing use of University envelopes marked with an appropriate Responsibility Centre and being used for personal mail. Effective immediately, such envelopes carrying telephone accounts, hydro or water bills, bank, or personal mail will be returned to the head of the Responsibility Centre concerned. The University's Postal Budget is not intended for such usage and the co-operation of the York Community in observing the Postal matters mentioned above will be appreciated.

- * There will be a Red Cross Blood Donor Clinic in the Winters College Junior Common Room on Wednesday, March 15 and Thursday, March 16 from 10:00 a.m. to 4:00 p.m. and Friday, March 17 from 9:30 a.m. to 12:30 p.m. In order to meet the ever-increasing needs of the Red Cross, which supplies blood to patients in 31 hospitals in Metropolitan Toronto, it is necessary to collect a minimum of 2,500 units a week. The Red Cross thanks the members of the York Community for their past support - attendance of all possible donors will be greatly appreciated.

STAFF POSITION:

1. Office of the President - Receptionist/Typist (grade 3); excellent typing and shorthand skills necessary as well as a good telephone manner; familiarity with the University organization would be useful.

2. Faculty of Fine Arts - Secretary (grade 3); to assist the Business Officer; fast, accurate typing a requirement as well as general clerical ability; an interest in the arts would be an asset.

GENERAL

- * University Closing Due to Severe Weather Conditions: Recent examples of extreme weather conditions and hazardous road conditions have emphasized the need for a statement of policy on closing the University in such circumstances. As a large community with academic schedules to meet and many members to serve, the importance of avoiding disruption is evident. There are times, however, when public safety indicates temporary interruption of the regular routines of the University. Hopefully, such occasions will be rare. The information given below is provided for the guidance of York members. It should be noted that, because a storm may coincide with special events such as examinations, visits by distinguished guests, and special meetings which would be particularly difficult to re-schedule, it is not the intention of this policy to require the cancellation of such events. Whether or not they are cancelled is at the discretion of those directly responsible.
- When severe weather conditions occur before the University opens in the morning, on the authority of the President, an announcement temporarily suspending classes and office attendance will be made on the following radio stations as soon after 7:00 a.m. as possible:
- | | | | | |
|-----------|-----------|-----------|----------|-----------|
| CFRB (AM) | CKEY (AM) | CHUM (AM) | CBL (AM) | CKFM (FM) |
|-----------|-----------|-----------|----------|-----------|
- Radio York will carry the same message after 8:00 a.m.
- When severe weather conditions occur, or are reported as imminent by the meteorological services of the Provincial Government, after the University has opened for the day, on the authority of the President, the Office of the Vice-President (Administration) will notify the head of each major division and administrative department that the University will be closed from a specific time that day. The person so informed will then be responsible for passing on the message to everyone in his unit. An announcement will also be made over Radio York. Unless such announcements are made, members of the community will be expected to maintain regular schedules.

This discussion is sponsored by the Department of Civil Engineering at the University of Toronto and the University of Toronto-York University Joint Program in Transportation. For further information call Professor E. Hauer at 928-5054.
- * Faculty Researchers interested in the effects of sports programs upon Canadian participants are asked to contact Professor Magnus Gunther, Institute for Behavioural Research, at local 3026. Some background in Sociology and survey methodology would be useful.
- * Nominations for the 40 student seats on the Faculty of Arts Council were opened on Monday, March 6, and are open to all regular and special full-time students registered in the Faculty of Arts.

The election of student councillors will be held on Friday, March 24.
Student Councillors are basically responsible for serving on the 12 committees of Council - Committee on Examinations and Academic Standards, Promotion and Tenure, Committee on Undergraduate Studies, Faculty/Student Relations, etc.
Further information may be obtained from the Chief Returning Officer, Derek Shanks, Room S932, the Ross Building
- * The Canadian Institute on Public Affairs is holding its 17th Winter Conference from Friday, March 10 to Sunday, March 12 at the MacDonald Block, Government of Ontario, Wellesley Street West, Toronto. GENERAL

- * University Closing Due to Severe Weather Conditions - Recent examples of extreme weather conditions and hazardous road conditions have emphasized the need for a statement of policy on closing the University in such circumstances. As a large community with academic schedules to meet and many members to serve, the importance of avoiding disruption is evident. There are times, however, when public safety indicates temporary interruption of the regular routines of the University. Hopefully, such occasions will be rare. The information given below is provided for the guidance of York members. It should be noted that, because a storm may coincide with special events such as examinations, visits by distinguished guests, and special meetings which would be particularly difficult to re-schedule, it is not the intention of this policy to require the cancellation of such events. Whether or not they are cancelled is at the discretion of those directly responsible.
- When severe weather conditions occur before the University opens in the morning, on the authority of the President, an announcement temporarily suspending classes and office attendance will be made on the following radio stations as soon after 7:00 a.m. as possible:
- CKEY (AM) CBL (AM) CHUM (AM) CKFM (FM) CFRB (AM)
- Radio York will carry the same message after 8:00 a.m.
- When severe weather conditions occur, or are reported as imminent by the meteorological services of the Provincial Government, after the University has opened for the day, on the authority of the President, the Office of the Vice-President (Administration) will notify the head of each major division and administrative department that the University will be closed from a specific time that day. The person so informed will then be responsible for passing on the message to everyone in his unit. An announcement will also be made over Radio York.
- Unless such announcements are made, members of the community will be expected to maintain regular schedules.

GENERAL

- * The Department of Physical Plant wishes to forewarn the Community of an embargo on telephone orders by Bell Canada effective April 14th, 1972. The University will be served with telephone services after June 17th, 1972 from a new Bell central equipment office located off-campus. The basic services will remain unchanged after this date and the only noticeable effect of the changeover will be the replacement of the 635 prefix on our existing centrex numbers by a new 667 prefix, the last four digits remaining the same. The new number for the York Switchboard, for example, will be 667-2100. Due to the complexity of the work involved in this changeover, it is important to the Telephone Company and is to the ultimate advantage of the University, that as few changes as possible are made to our existing telephone arrangements during the 8-week period preceding June 17th. It is necessary, therefore, to place an embargo on telephone work requests received after April 14th until June 17th. During this period, only requests of an emergency nature can be handled and these should be directed to the Communications Co-ordinator, Room C25, Temporary Office Building, local 3754. All Departments are asked to co-operate by examining any possible telephone requirements for this period now and submitting the necessary Work Request ahead of time. This will, in most cases, enable the required service to be provided in advance of the embargo. Failing this, the required service can only be provided after June 17th. The embargo will in no way affect the planned in-service dates for telephones in the new Administrative Studies Building, College 'F' and College 'F' Residence Buildings.
- * The York Bookstore's Annual Spring Sale will be coupled with a Craft Forum from Monday, March 20 to Friday, March 24. Thousands of regular stock books and special purchase titles will be offered at greatly reduced sale prices. The Craft Forum will feature discussions of pottery, wine making, candle making, horticulture and bottle craft by prominent Canadian craftsmen.

Tuesday	- Candle Making - Robbie and Harry Probert, Carleton Place, Ontario
Wednesday	- Bottle Craft - John Bowman, Warton, Ontario
Thursday	- Horticulture - Mr. Denes Kiss, York University Greenhouse
Friday	- Wine Making - Sandy Mammott, Vintage Craft
- * The final general meeting of the York Homophile Association will be held Tuesday, March 21 at 7:00 p.m. in Room 001, McLaughlin College. The topic of this meeting will be "Religion in Homosexuals" -- the Association urges all members to attend.

GENERAL

- * The Department of Physical Plant wishes to forewarn the Community of an embargo on telephone orders by Bell Canada effective April 14th, 1972. The University will be served with telephone services after June 17th, 1972 from a new Bell central equipment office located off-campus. The basic services will remain unchanged after this date and the only noticeable effect of the changeover will be the replacement of the 635 prefix on our existing centrex numbers by a new 667 prefix, the last four digits remaining the same. The new number for the York Switchboard, for example, will be 667-2100. Due to the complexity of the work involved in this changeover, it is important to the Telephone Company and is to the ultimate advantage of the University, that as few changes as possible are made to our existing telephone arrangements during the 8-week period preceding June 17. It is necessary, therefore, to place an embargo on telephone work requests received after April 14 until June 17. During this period, only requests of an emergency nature can be handled and these should be directed to the Communications Co-ordinator, Room C25, T.O.B., local 3754. All Departments are asked to co-operate by examining any possible telephone requirements for this period now and submitting the necessary Work Request ahead of time. This will, in most cases, enable the required service to be provided in advance of the embargo. Failing this, the required service can only be provided after June 17. The embargo will in no way affect the planned in-service dates for telephones in the new Administrative Studies Building, College 'F' and College 'F' Residence Buildings.
- * The Faculty of Arts Minor Research Grants deadline for applications has been extended to April 15, 1972. Although the monies for the 1971-72 session have been distributed, new budget funds will be available from May 1, 1972.
