GENERAL

- * The Daily Bulletin is evidence of the ever increasing number of activities and events taking place on the York campuses. As a service to the community and to try to minimize the scheduling of events of a similar nature in identical time slots, the Department of Information is starting an Events Scheduling book in which all regular university activities (graduation ceremonies, Gerstein Lecture Series, Reading Week, etc.) will be listed as well as holidays and dates of special interest (i.e. Grey Cup Day). Any person wishing to plan an event can contact the Bulletin Editor (local 3441) to check if any competitive activities have already been scheduled for the date they are considering for their function and to list their proposed function for the information of other members of the community. The service in no way intends to tell people when they can or cannot hold any particular function, but merely to act as a clearing house in an attempt to reduce scheduling conflicts within the University.
- * A Symposium on Vision and Light in Vehicular Traffic Safety, sponsored by York's Department of Psychology, will be held from September 11 - 13. The aim of this symposium is to review, integrate and discuss basic and applied information and concepts about vision, visibility and light as applied to vehicular traffic safety. Such information should be of particular interest to highway administrators, environmental and behavioural scientists and safety experts. Enquiries should be sent to Dr. Peter Kaiser, Department of Psychology, Behavioural Science Building, York Campus.

- * West Campus Landscaping

The Department of Physical Plant reports that work commenced August 28th on the initial phase of the West Campus Landscape Development Program as projected in the York University Master Plan. The work undertaken at this time includes the extension of the south-west portion of Fraser Drive to the east-west service road, excavation for the upper lake which forms a drainage basin for storm water collected from the campus proper, the construction of a small dam and weir structure to retain the water and control the lake level, construction of a sluiceway and culvert structure to carry the outflow under the west section of Fraser Drive and the grading, sodding and seeding of the balance of the area bounded by the Library Access Road on the north, Fraser Drive on the west, the future college complex on the south and Osgoode Hall, the Administrative Studies and Scott Central Library buildings on the east. The area involved amounts to some 10 acres including the 1.6 acre lake. Surplus excavated material will be deposited in low lying areas on the west side of Fraser Drive preparatory to future development in that area. This project is the culmination of many months of detailed planning carried out by the University's engineering and landscaping consultants, the Arboretum Committee and the Departments of Campus Planning and Physical Plant. This work has been integrated with the development of the York Campus Arboretum, an extensive program of tree planting being actively implemented in consultation with the Arboretum Committee under the chairmanship of Dr. M. Boyer. Consultations have also been held with the Metropolitan Toronto and Region Conservation Authority responsible for Pioneer Village and the development of the Black Creek Conservation area in order to ensure co-ordinated development of the west campus - Black Creek area.

It is anticipated that construction of Fraser Drive, excavation for the lake, the construction of the control structure, and a good portion of the sodding and seeding will be completed this year. The filling of the lake and the balance of sodding and seeding will be carried out in the spring of 1973.

STAFF POSITION:

Typists - Positions are immediately available for fast, accurate typists (50-55 w.p.m.) at junior and intermediate levels to work in a typing pool arrangement. Dictaphone experience useful. In some cases, opportunity will be given to train as M.T.S.T. operators. For further information call Mrs. G. Neilson at 2279.

GENERAL

- * The Daily Bulletin is evidence of the ever increasing number of activities and events taking place on the York and Glendon campuses. As a service to the community and to try to minimize the scheduling of events of a similar nature in identical time slots, the Department of Information is starting an Events Scheduling book in which all regular university activities (graduation ceremonies, Gerstein Lecture Series, Reading Week, etc.) will be listed as well as holidays and dates of special interest (i.e. Grey Cup Day). Any person wishing to plan an event can contact the Bulletin Editor (local 3441) to check if any competitive activities have already been scheduled for the date they are considering for their function and to list their proposed function for the information of other members of the community. The service in no way intends to tell people when they can or cannot hold any particular function, but merely to act as a clearing house in an attempt to reduce scheduling conflicts within the University.
- * Parking Notice
Until Sunday, September 24, 1972, vehicles may be parked free of charge in any peripheral (single letter) lot, on York campus. All motor vehicles driven on campus must be registered with the Parking Office, Temporary Office Building, by September 25. Registration may be effected by purchasing an Annual Reserved Area Permit (\$75.00) or an Unreserved Area Permit (\$25.00) or by obtaining a Registration Decal, which is issued free of charge. Parking is permitted only in the authorized spaces in areas posted as parking lots or in a metered space, on payment of the approved fee. Those persons obtaining a Registration Decal are required to pay a daily parking fee of 50¢, and are permitted to park only in "N" lot. An enlarged and supervised parking lot has been provided adjacent to Burton Auditorium to meet the needs of visitors to the campus. Effective Monday, September 18, a modest charge of 25¢ an hour, subject to a maximum of \$2.00 a day, with a flat rate of 50¢ after 6:00 p.m., will be made to cover the cost of this special service. Members of the York community are advised to obtain a copy of the Parking and Traffic Regulations from the Parking Office for further information.
- * Following the practice of former years, an Off-Campus Housing Office has been set up on the main floor, Curtis Lecture Halls, to assist students to locate accommodation. However, offers of off-campus accommodation being received from the community are very limited this year and the prospect of additional listings is not good.
- * As part of its co-curricular activities, the Program in Theatre (Faculty of Fine Arts) will operate a Cabaret Theatre in the Absinthe Coffee House in Winters College. Original writing for cabaret production is very welcome - the material can consist of short plays, skits, revue pieces, or special talents. For auditions or further information contact David Watson at local 3970 - Room 208, Burton Auditorium.
