- \* **TASK FORCE ON URBAN STUDIES:** Last month, the President created a small Task Force, with representation from the Faculties of Arts, Environmental Studies and Administrative Studies, to review the involvement of the University in the broad spectrum of urban and regional studies and to examine and suggest possible areas for future initiatives. While this examination will include the possibility of program innovation in teaching and community relations, the primary focus will be on the research component and the potential that exists for strengthening York's efforts in this area. The Task Force would like to identify alternatives for the President as soon as possible and will be meeting regularly over the next several weeks. It is expected that the Task Force will be scheduling special meetings with members of the York community, the President and appropriate external officials. In the meantime, however, the Committee is interested in receiving the opinions of York's faculty and students on our present and future involvement in urban and regional studies, both instructional and research. Interested persons are invited to write and contact the Secretary of the Task Force, c/o The Office of the President.
