## GENERAL

\* University Closing Due to Extreme Weather Conditions: The approach of winter calls for the annual notice of policy with regard to closing the University when extreme weather makes road conditions hazardous. As a large community with academic schedules to meet and many members to serve, the importance of avoiding disruption is evident. There are times, however, when public safety indicates temporary interruption of the regular routines of the University. Hopefully, such occasions will be rare. The information given below is provided for the guidance of York members. It should be noted that, because a storm may coincide with special events such as examinations, visits by distinguished guests, and special meetings which would be particularly difficult to reschedule, it is not the intention of this policy to require the cancellation of such events. Whether or not they are cancelled is at the discretion of those directly responsible. When severe weather conditions occur before the University opens in the morning, on the authority of the President and the Chairman of Senate, an announcement suspending classes and office attendance will be made on the following radio stations as soon after 7:00 a.m. as possible:

CKEY (AM)                      CHUM (AM)                      CFRB (AM)                      CBL (AM)                      CKFM (FM)

Radio York will also carry the same message after 8:00 a.m. When severe weather conditions occur, or are reported as imminent by the meteorological services of the Provincial Government, after the University has opened for the day, on the authority of the President and the Chairman of Senate, the Office of the Vice-President (Administration) will notify the head of each major division and administrative department that the University will be closed from a specific time that day. The person so informed will then be responsible for passing on the message to everyone in his unit. Announcement will also be made over Radio York. Unless such announcements are made, members of the community will be expected to maintain regular schedules. [from the Office of the Vice-President (Administration)]

- \* Members of the community are asked to note the following correction to the York Telephone Directory: Draper, L.A., Office of the Director (Libraries), 310H, Scott - 2375.
- \* University Closing Due to Extreme Weather Conditions: The approach of winter calls for the annual notice of policy with regard to closing the University when extreme weather makes road conditions hazardous. As a large community with academic schedules to meet and many members to serve, the importance of avoiding disruption is evident. There are times, however, when public safety indicates temporary interruption of the regular routines of the University. Hopefully, such occasions will be rare. The information given below is provided for the guidance of York members. It should be noted that, because a storm may coincide with special events such as examinations, visits by distinguished guests, and special meetings which would be particularly difficult to reschedule, it is not the intention of this policy to require the cancellation of such events. Whether or not they are cancelled is at the discretion of those directly responsible. When severe weather conditions occur before the University opens in the morning, on the authority of the President and the Chairman of Senate, an announcement suspending classes and office attendance will be made on the following radio stations as soon after 7:00 a.m. as possible:

CKEY (AM)	CHUM (AM)	CFRB (AM)	CBL (AM)	CKFM (FM)
-----------	-----------	-----------	----------	-----------

Radio York will also carry the same message after 8:00 a.m. When severe weather conditions occur, or are reported as imminent by the meteorological services of the Provincial Government, after the University has opened for the day, on the authority of the President and the Chairman of Senate, the Office of the Vice-President (Administration) will notify the head of each major division and administrative department that the University will be closed from a specific time that day. The person so informed will then be responsible for passing on the message to everyone in his unit. Announcement will also be made over Radio York. Unless such announcements are made, members of the community will be expected to maintain regular schedules. [from the Office of the Vice-President (Administration)]
