GENERAL

- * University Closing Due to Extreme Weather Conditions: The approach of winter calls for the annual notice of policy with regard to closing the University when extreme weather makes road conditions hazardous. As a large community with academic schedules to meet and many members to serve, the importance of avoiding disruption is evident. There are times, however, when public safety indicates temporary interruption of the regular routines of the University. Hopefully, such occasions will be rare. The information given below is provided for the guidance of York members. It should be noted that, because a storm may coincide with special events such as examinations, visits by distinguished guests, and special meetings which would be particularly difficult to reschedule, it is not the intention of this policy to require the cancellation of such events. Whether or not they are cancelled is at the discretion of those directly responsible. When severe weather conditions occur before the University opens in the morning, on the authority of the President and the Chairman of Senate, an announcement suspending classes and office attendance will be made on the following radio stations as soon after 7:00 a.m. as possible:

CKEY (AM)	CHUM (AM)	CFRB (AM)	CBL (AM)	CKFM (FM)
-----------	-----------	-----------	----------	-----------

Radio York will carry the same message after 8:00 a.m. When severe weather conditions occur, or are reported as imminent by the meteorological services of the Provincial Government, after the University has opened for the day, on the authority of the President and the Chairman of Senate, the Office of the Vice-President (Administration) will notify the head of each major division and administrative department that the University will be closed from a specific time that day. The person so informed will then be responsible for passing on the message to everyone in the unit. Announcement will also be made over Radio York. Unless such announcements are made, members of the community will be expected to maintain regular schedules.
- * The Faculty of Arts Student Caucus has an office in Room S319 of the Ross Building - telephone 667-6391. The office will be staffed between 10:00 a.m. and 2:00 p.m. daily.

- * There is a need in the community adjacent to York University (Ward 3) for second-hand clothing, especially for babies and young children. Members of the University community willing to donate articles of clothing may leave them at the Information York Booth for the Community Relations Officer (or telephone Denys Brown at local -3441).

A copy is available for reference in the Faculty of Graduate Studies (N902, Ross Building). Copies may be ordered at \$7.50/copy (surface post) or \$11.25 (second class airmail). The Communications Department will coordinate a bulk order for the University in order to take advantage of discount rates if sufficient copies are ordered. Leaflets for further information as well as order forms are available from S802, Ross Building. Departments wishing to participate in a bulk order must place their orders with the Communications Department no later than Friday, November 19, 1976.

EMERGENCY SERVICES CENTRE -3333

GENERAL

* University Closing Due to Extreme Weather Conditions: The approach of winter calls for the annual notice of policy with regard to closing the University when extreme weather makes road conditions hazardous. As a large community with academic schedules to meet and many members to serve, the importance of avoiding disruption is evident. There are times, however, when public safety indicates temporary interruption of the regular routines of the University. Hopefully, such occasions will be rare. The information given below is provided for the guidance of York members. It should be noted that, because a storm may coincide with special events such as examinations, visits by distinguished guests, and special meetings which would be particularly difficult to reschedule, it is not the intention of this policy to require the cancellation of such events. Whether or not they are cancelled is at the discretion of those directly responsible. When severe weather conditions occur before the University opens in the morning, on the authority of the President and the Chairman of Senate, an announcement suspending classes and office attendance will be made on the following radio stations as soon after 7:00 a.m. as possible:

CKEY (AM)	CHUM (AM)	CFRB (AM)	CBL (AM)	CKFM (FM)
-----------	-----------	-----------	----------	-----------

Radio York will carry the same message after 8:00 a.m. When severe weather conditions occur, or are reported as imminent by the meteorological services of the Provincial Government, after the University has opened for the day, on the authority of the President and the Chairman of Senate, the Office of the Vice-President (University Services) will notify the head of each major division and administrative department that the University will be closed from a specific time that day. The person so informed will then be responsible for passing on the message to everyone in the unit. Announcement will also be made over Radio York. Unless such announcements are made, members of the community will be expected to maintain regular schedules.

- * The York campus community are advised that when a Snow Emergency condition is declared by Metropolitan Toronto, or at the University, the following restrictions on parking will be imposed to facilitate snow removal:
 - curb parking will not be permitted in the peripheral (unreserved) lots;
 - between midnight and 8:00 a.m. - cars left overnight in peripheral lots will be required to park in designated areas in the front portion of the lots; no parking will be permitted on any campus roads including those where parking is normally allowed (Ottawa Road, and road adjacent to the Temporary Office Building); no parking permitted in any reserved area. (The University reserves the right to suspend parking temporarily in any area for emergencies - York Campus Parking and Traffic Regulations 1976/77.)
 Snow emergency conditions will be announced through local radio stations and at the University by Radio York; "Snow Emergency" signs will also be displayed at all entrances to the campus.
