As a large community with academic schedules to meet and many members to serve, the importance of avoiding disruption is evident. There are times, however, when public safety indicates temporary interruption of the regular routines of the University. Hopefully such occasions will be rare. The information given below is provided for the guidance of York members.  
The decision to cancel all classes or close the offices in the University is the responsibility of the Chairman of Senate and the President respectively.  
When the decision is made during regular working hours, the Office of the Vice-President (University Services) will notify the designated representative of each Faculty/College and administrative department that offices will be closed and/or classes cancelled from a specific time. The person so informed will then be responsible for passing on the message to members of the unit. An announcement will be made as soon as possible over the following radio stations: Radio York, Radio Glendon, CKEY(AM), CHUM(AM), CFRB(AM), CBL(AM), and CKFM(FM).  
When the decision is made before the University opens in the morning, the Emergency Services Centre will be notified and an announcement suspending classes and office attendance will be made on the above designated stations as soon after 7:00 a.m. as possible.  
Unless such announcements are made, members of the community will be expected to maintain regular schedules. Please do not telephone!!!" (Office of the Vice-President [University Services]).

- rent or exchange, north Oxford, England (close to the university), academic's family home, from end of July 1979-end of December 1979  
- house in Branscombe (east Devon), sabbatical year, reasonable rent  
Some sabbatical listings are available for visiting faculty for the 1979-80 academic year. For any of the above, further information may be obtained by calling Denys Brown at local -3452 (Room S102, Ross Building).
- \* The Department of Safety and Security advises all members of the community at the York campus that when a snow emergency condition is declared by Metropolitan Toronto or at the University, the following restrictions on parking will be imposed in order to facilitate snow removal:  
1) curb parking will not be permitted in the peripheral (unreserved) lots;  
2) between midnight and 8:00 a.m., no parking will be permitted on any campus roads including those where parking is normally allowed (viz. Ottawa Road and the road adjacent to the Temporary Office Building); and,  
3) between midnight and 8:00 a.m., no parking will be permitted in any reserved area (excluding HH lot).  
The University reserves the right to suspend parking temporarily in any area for emergencies (see York Campus Parking and Traffic Regulations, 1978-79).  
When a snow emergency condition is declared in Metro Toronto, this is broadcast on local radio stations; if it is found necessary to declare an emergency at the University at any other time, this will be carried by Radio York. "Snow Emergency" signs will also be displayed at entrances to the parking lots. The degree of cooperation shown by members of the community will determine the effectiveness of snow removal; problems are presented due to the substantial number of vehicles belonging to residents which are parked overnight on campus. The above measures will enable a more efficient use to be made of snow clearing equipment, particularly during the night hours, which should prove beneficial to all.
- \* A free physical fitness test for males 30-45 years of age will be held; for further information call Jackie Mersich at local -3213 as soon as possible.
