GOVERNMENT FUNDING OF VARIOUS FULL AND PART-TIME EMPLOYEES AT THE UNIVERSITY

The attention of the University community is called to the following list of government-funded job opportunities in the hope that various areas of the University might create summer employment openings for our students during the summer of 1984. As well, individuals and groups in the University might consider bringing such possibilities to the attention of outside employers -- municipalities, institutions and private companies -- with an eye to encouraging the hiring of York students

Individuals and organizations interested in pursuing these programs should be aware that an emphasis tends to be placed on those job proposals which provide participants with skills and experience for which there is a ready application in the labor market. In that regard, these programs should not generally be viewed as supplements to assistance provided by research funding agencies. Some programs also place an emphasis on a project which benefits the community at large.

Note that deadlines have passed on some of these programs. They are included in this listing as an indication of similar programs that will be available in 1985 and beyond.
