GOVERNMENT FUNDING AVAILABLE FOR STUDENT EMPLOYMENT

The attention of the University community is called to the following list of government-funded job opportunities in the hope that various areas of the University might create summer employment openings for our students during the summer of 1985. As well, individuals and groups in the University might consider bringing such possibilities to the attention of outside employers--municipalities, institutions, and private companies--with an eye to encouraging the hiring of York students.

Individuals and organizations interested in pursuing these programs should be aware that an emphasis tends to be placed on those job proposals which provide participants with skills and experience for which there is a ready application in the labor market. In that regard, these programs should not generally be viewed as supplements to assistance provided by research funding agencies. Some programs also place an emphasis on a project which benefits the community at large.

On behalf of the Board of Governors and members of the University Administration may I extend our sincere sympathies to those who suffered from the actions of the pranksters involved in the tear gas incident of A.M. Saturday, March 23, 1985.
