YORK UNIVERSITY

Office of the Vice-President (Academic Affairs)

To: York Community
From: Stephen E. Fienberg, Vice-President (Academic Affairs)
Re: Relocation of IBM Mainframe Resources and Support
Date: November 12, 1991

This is an exciting time for York University in the area of computing. After much discussion, consultation and deliberation the University has made a major decision to improve the access to and the arrangements for computing. On November 5, the University issued a Letter of Intent to the Westbridge/STM Corporation to effect significant improvements to the York computing environment via "Outsourcing" of YORKVM1, YORKVM2 and YORKMVS services. This Outsourcing step will enable York to continue to offer with minor exceptions all of the current inventory of mainframe-based services while enabling us to develop simultaneously the campus network and to provide alternative computing environments that will serve all of the campus computing community, both present and future in innovative ways. The initiation of the campus network plan has a primary objective of providing new resources to the faculties for teaching and research support, well beyond those that have been available heretofore. We are confident that outsourcing will help us to achieve this objective while keeping costs under control, thereby assisting the faculties in a time of financial stringency.

CCS plans to use all of the financial recoveries from the ultimate reduction of mainframe services for the campus-wide network and for alternative computing platforms and support. In the coming months we expect a number of announcements of new network-related developments and expanded access to computing for our faculty, staff and students.

Specific changes linked to Outsourcing are:

1. Removal from York of the IBM mainframes known at York as YORKVM1, YORKVM2 and YORKMVS.
2. The initial relocation of YORKMVS, YORKVM1 and YORKVM2 operating systems environments onto an IBM 3090-180E and IBM 4381 computer located at Westbridge/STM in Scarborough, Ontario. In Fall 1992 all three systems will be co-mounted on the 180E and the 4381 will be released.
3. Relocation to Westbridge/STM of the following equipment:
 - all IBM-compatible magnetic tape drives currently connected to YORKVM1, YORKVM2 and YORKMVS;
 - our Library of magnetic tape reels that can be mounted on those tape drives;
 - all IBM-compatible magnetic disk storage drives currently connected to those computers.
4. Provision by Westbridge/STM of MVS and VM/CMS Operating System Programming Services.
5. Provision by Westbridge/STM of Computer Operations services.
6. Establishment of leased, high speed communication lines between the 180E computer at Westbridge/STM and the peripheral equipment (ie. printers, terminals, connections to the ROLM Telephone System, modem pool and networks) at York.

The relocation project will commence December 22, 1991 and be completed on or before January 5, 1992. During this conversion period no YORKMVS, YORKVM1 or YORKVM2 services are officially scheduled.

Following this relocation, YORKMVS, YORKVM1 and YORKVM2 services will be restored. No changes in the appearance of these services are planned, excepting for the removal of Vector Processing (previously used for numerically-intensive research) and the establishment of a new procedure for the handling of magnetic tapes that are not retained in our Tape Library.

In terms of support services, Westbridge/STM staff will assume the responsibility for MVS-based Systems Programming activity, although minimal amounts of such are anticipated, given that our MVS-based operating system has now been frozen. Westbridge/STM will also provide Systems Programming support for both VM/CMS systems but CCS will continue to provide end user support of VM/CMS activities. Console Operations of YORKMVS, YORKVM1 and YORKVM2 will be taken over by Westbridge/STM Operations staff, but CCS retains some operations control via operations consoles remaining at York. Data Processing/Production Control and Data Entry resources also remain at CCS. CCS will act as the liaison between the end user community and the Westbridge/STM organization.

This arrangement with Westbridge/STM will last at most 5 years, although an earlier conclusion of MVS and VM/CMS computing is a desired objective. During the 5 years, we hope different groups within the University will transfer computing activities to other computing equipment and utilize other operating systems. We plan no enhancement of the equipment or service resources at Westbridge/STM excepting for a conversion from magnetic tape reels to magnetic tape cartridges. Indeed, the amount of resources and hence the fees paid for them will decrease as migration to other platforms occurs. MVS and VM/CMS resources supplied by CCS will also reduce.

This is an exciting time for both academic and administration computing at York and we regret the inconvenience that may result from the transition activities at the end of December. We hope that the development, in campus networking and the expanded access in the coming months will more than compensate.

GENERAL:

RECYCLABLE*

The York community is reminded that the next pick-up for **disposal and recycling of confidential fine paper** (computer printout, letters, exams, and other fine paper) will be the week of December 9. The material will be collected by the Grounds Division and delivered to a paper recycling company where the paper will be shredded and recycled in a safe and confidential manner. In a continuing effort to reduce solid waste, the Grounds Division will no longer be distributing corrugated cardboard boxes for storage of confidential paper. The community is advised that an ample supply of used corrugated cardboard boxes can be obtained from all loading docks or service areas. Please note that departments must call the Grounds Division at -55502 by December 5 to request pick-up. For further information, call Paul Mayol at the University's Recycling Hotline (-40444).

The Department of Private Funding has an opportunity for a university graduate interested in training for a career in fundraising for Canadian universities, through the **McConnell Fellowship Program in University Development**. Interested candidates must be Canadian citizens or permanent residents; hold a minimum of a bachelor's degree from a Canadian university, graduating with the first degree no earlier than 1987; not have held a full-time permanent position with a university development or alumni office prior to application. Candidates must demonstrate excellent oral and written communication skills and a number of qualities and skills essential to development work. The one-year paid training program commences June 1, 1992. For further information, call Valerie Peticca, Department of Private Funding (-55010). The deadline for applications is December 16.

The Staff Development Office is still accepting applications for the following: **Accessing the FRS On-Line System (TOMBUDG202P)**, December 3, 1:00-4:00 p.m., (P&M staff); **The Art of Conducting Effective Meetings (MGTMEET100P)**, December 5, 9:00 a.m.-4:30 p.m., (P&M staff); **Breaking Through Career Plateaus (PERCARD1011)**, December 7, 10:00 a.m.-4:00 p.m., (P&M, YUSA, CEYU). For information or to register contact Lisa Ward at -22597.

The Roeher Institute Library requires a **library technician/research assistant** to assist with the compilation of a bibliography in the area of mental handicap in Canada, and to work on the development of the library's database. Excellent research and writing skills required. Wordprocessing/data entry skills required. Experience with InMagic software an asset. Location: York University campus. This is a one-year contract position, starting date negotiable. Send resumes to: Miriam Ticol, Manager, Information Services, The Roeher Institute, 4700 Keele Street, North York, Ontario M3J 1P3. For further information call (416) 661-9611.

Art Galleries/Displays: The IDA Gallery presents "Metap Praxis" by Stephen Doyle from November 25 to November 29, main lobby, Centre for Fine Arts.

"Scenarios in Self-Defense" is a three part video series designed to enhance womens' personal safety in the streets, at home, and in the work place, by minimizing problem encounters before they can escalate. Topics include: Date Rape, Early Options of Self-Defense, and Practical Physical Resistance. Presented by members of York Security Services, these seminars can be given in whole or in part to any University group, club, or department. For more information, please contact Terry Wright at -55944 or Al Mossman at -55360.

Members of the York community are asked to note that the **Printing Services' Office and Copy Centre** are still located in Room S174, Ross.
