STUDENT FIELD HOUSE

On Monday evening the Finance, Property and Building Committee of York's Board of Governors approved a recommendation to the full Board that a 30,000 square foot gymnasium and fitness facility, provisionally named the York Student Field House, be constructed on the west side of the Tait McKenzie facility.

The new facility is in partial response to the long-standing deficit in Physical Education, Athletics and Recreation space. (Numerous provincial and national studies have shown that York has only 32% of the space necessary for such activities in a university with 50,000 students and employees.) It is intended and designed to address the pressing co-curricular (non-academic) needs of that population only. The academic needs of the Physical Education Department remain at the top of the list of priorities for future facilities.

The $2.5-million Student Field House is being funded largely by unallocated student activity revenue produced by recent years' over-enrolment. According to Ministry of Colleges and Universities Guidelines such funds must be spent on non-academic activities.

For this reason, the Student Field House will only accommodate athletic and the ever-expanding intramural and recreational programmes demanded by students at York. (York employees and alumni pay memberships approximating student ancillary fees to participate in such programmes.)

The new facility, which is expected to open its doors in September 1993, will be accessible to the disabled and provide security control for the entire Tait McKenzie and Field House complex after normal business hours.

For further information, please contact Beth Hopkins, Vice-President (Campus Relations and Student Affairs) at 736-5275 or Steve Dranitsaris, Executive Officer of the Department of Physical Education, Athletics and Recreation at 736-5182.
